

FOR IMMEDIATE RELEASE -- September 13, 2021

## **Temporary COVID-19 Testing Site to Open in Nacogdoches**

**NACOGDOCHES, TEXAS** -- Nacogdoches County and the City of Nacogdoches today announced a partnership with HealthTrackRx to launch a temporary COVID-19 testing site in Nacogdoches. Drive-thru testing will be available at no cost to the patient as early as Wednesday, September 15.

Located at the Nacogdoches County Exposition Center parking lot (3805 NW Stallings Drive), the site will operate seven days a week from 9:00 a.m. through 5:00 p.m. Appointments are encouraged and can be made by selecting a day and time in the online portal at <https://bit.ly/testatnngs>.

There is no out of pocket expense for the testing, however insured patients are asked to bring their insurance card so HealthTrackRx may file and be reimbursed for offering the testing service.

The PCR test, also called a molecular test, is conducted with a nasal swab while the patient remains in the car. Results can be expected within 24 hours.

The testing site will remain open through September 30. COVID-related questions can be directed to 936-468-4787.
