Sewer Treatment Plant Tour & Discussion

Bartlett, Steve <bartletts@nactx.us>

Thu, Feb 23, 2023 at 8:24 AM

To: Capital Needs Advisory Committee <cnac@nactx.us>

Committee:

Please find attached a brief summary of the wastewater treatment plant and the capital projects proposed for this facility. We have been asked to provide you with this type of information in advance of your trip.

We will meet at the Recreation Center to load into vans next Tuesday at 3:00 pm. Please be prompt or let us know if you will be late and wish to drive your own car. We have received several comments about the lack of time to have discussions after the tours, but extended duration meetings were also not preferred by the group. We have eliminated several destinations from our tour schedule, but we will still need to move quickly during the tour so that we leave adequate time for discussion. We hope to have 45 minutes available after the plant tour. We have several sessions in the next few weeks with significant time for the Committee to have extended funding discussions.

We will be walking around the plant site, so comfortable shoes with limited heels may be a benefit.

We look forward to seeing you next week.
